

I have enjoyed listening to K-LOVE on my 94.9FM station. This station has affected my family and myself in a very positive way and we wish to continue listening to this station. Please do not allow the LPFM to replace the current FM translator service. This fine K-LOVE station I listen to promotes the values my friends and family wish to hear more of on the radio. It helps encourage the whole community and it would be a very sad if such a wonderful service were cut out because of the proposal you are considering. Listen to people and do not cut our values from the airways.

Sincerely, Kristi Hiter
